PLAID ABOUT YOU

It might go by the name of "motel," but there is nothing sub-par about this brand new stay. **MOUNTAIN MODERN MOTEL** in the heart of Jackson Hole, Wyo., opening late spring/early summer, adds to the mountain town's vibrant atmosphere. The 135-room, social media-made destination is bursting with whimsical frontier flare, inspired by the great outdoors. Cool and contemporary, Mountain Modern has high-tech features, plenty of room for outdoor gear, and fun elements like chalkboard word searches and a platform bunk experience in select rooms. The on-site team of Wise Guys can also make sure guests are in the know when it comes to top fly-fishing streams or the best local craft beer scene. Plus, the prime location means wildlife safaris in Grand Teton National Park, Yellowstone stopovers and all the best the natural world has to offer. mountainmodernmotel.com. —Melissa Larsen
